

HOLTKÖTTER
Leuchten - Qualität made in Germany seit 1964

Manufacturing lighting in Germany
since 1964

518 North Trading is the exclusive U.S. distributor for Holtkötter, representing lighting engineered and manufactured in Germany.

We work closely with a network of authorized dealers, design professionals, and sales representatives across the United States to bring a curated selection of UL-certified fixtures to the U.S. market. Focused on quality, precision, and service, **518 North Trading** ensures a seamless connection between German craftsmanship and the needs of the American design community.

For more information on becoming an authorized Holtkötter dealer, please contact Stephanie at stephanie@518north.com.

Warranty Information

Holtkötter Warranty Coverage

Holtkötter lighting products are crafted to the highest standards of quality and engineering. We proudly offer the following warranty coverage:

- 2-Year Limited Warranty on the complete lamp fixture against defects in materials and workmanship.
- 5-Year Limited Warranty on integrated LED components.
- Spare parts availability for a minimum of 5 years from the date of purchase to support long-term service and maintenance.

This warranty applies under normal residential use and proper installation.

Proof of purchase is required.

Design 9614 Reading Lamp

Design 9614

Technical Data

The modern reading lamp-delicate articulated arms and a narrow roof reflector ensure a simple yet elegant look. The light is continuously dimmable via a touch dimmer. The last used light setting is saved via the memory function even after the light is switched off. The lamp's height is adjustable via a knurled nut. In addition, the articulated arms and reflector can be individually adjusted.

Every detail is engineered in-house — even the tools that make our components. True mastery is built, not bought.

The brushed finish speaks for itself — the result of steady hands and years of experience.

In our in-house paint shop, every single part receives its own distinctive, durable finish

Each reflector is spot-welded with threaded inserts —allowing the LED boards to be assembled without soldering or gluing.

Every Holtkötter light passes through careful hands. Our youngest team member ensures that every piece meets our highest standards.

Before our lights leave Germany, they pass one final inspection — cleaned, checked, and packed with pride.
